OBJECTIVE

Seeking an internship in software development engineering to gain hands-on experience and contribute to real-world projects, leveraging my programming skills and enthusiasm for technology.

EDUCATION

Intermediate | Delhi Public School, Ruby Park, Kolkata

2021-22

Percentile - 95%

BTech in Electrical Engineering | National Institute of Technology, Jamshedpur

2022-2026

CGPA - 8.3

POSITIONS OF RESPONSIBILITIES

- Serving as the CR of my batch
- Member of Electrical Engineering Society of NIT JSR
- Served as cultural secretary in the Hostel at NIT JSR
- Served in NSS events of NIT JSR

SKILLS

- Problem Solving Skills
- Collaboration and Teamwork
- Time Management
- Continuous Learning
- Adaptability
- Programming Languages (Python, C, C++)
- Web Development (HTML, CSS, JavaScript, React JS, nodeJS, RESTful API, express JS)
- Algorithms and Data-Structures, OOPS
- SQL, RDBMS, mongoDB

ACTIVITIES

See my [Github profile](#) for projects I work on.

Actively participating in platforms like Code forces and engaging in hackathons, I consistently challenge myself to solve complex problems, refining my coding skills. Additionally, I am currently immersed in a course on Artificial Intelligence and Machine Learning on Udemy, furthering my understanding of cutting-edge technologies shaping the industry. Recently, I completed a comprehensive Data Structures and Algorithms course on the same platform, earning a certificate, enhancing my proficiency in this foundational aspect of software development.
